

NTF WORKSHEET

It's time to think about your degree-career path...

What are you most interested in?

What 3 skills would you love to have?

Thinking about these, which would help you achieve your dream job?

What would you rather do: learn a niche subject or a range of skills?

What does your portfolio say about you? How can you build upon this?

Take these thoughts and go look at courses, have any caught your eye?
